## Scholarships make a difference

In the words of a scholar

Scholarship funds have been a great blessing to me. They have allowed me to focus on what's important to me. I've been able to learn in greater depth the interesting material from my environmental engineering program, to be engaged in exciting extracurriculars on campus and to spend time with aging grandparents, not being burdened by an extra job using up my limited time. I have also had the opportunity to pursue bigger dreams, including volunteering with a camp for impoverished children in St. Lucia. This upcoming summer, I plan to volunteer in a poor area of Malawi affected by severe flooding. I cannot thank the generous donors of these scholarship funds enough! Thank you!
