Gain exposure in the Canadian Parking and
Mobility community through targeted advertising

CPA MEDIA KIT 2022

Canadian Parking Association offers various advertising opportunities through each of its electronic and print media options. This includes the quarterly publication, Parker magazine, conference materials, web ads on Canadianparking.ca, and ad space in bi-weekly e-Newsletters.

Advertising and editorial content is accepted from the Parking and Mobility industries, as well as other interest groups that are related to, or have interest in the parking industry.

Reaching your target audience is simple using the Canadian Parking Association news outlets. For those who are interested in supporting the CPA while taking advantage of all available advertising options, consider becoming a CPA Partner. Benefits from partnership opportunities are numerous.

Connecting Parking and Mobility Professionals

“We bring together professionals from across a broad spectrum of the parking and mobility industries to network, provide training, develop and adapt new technologies and enhance customer experiences for the betterment of our communities and industry.”

Build your Marketing Plan

Combine advertising options and save. Ad space rates for Parker magazine will be discounted by 10% for each issue that is accompanied by an online web ad or eNewsletter ad.

Combined circulation for Parker and eNewsletter options will place your ad in front of 3,500 contacts up to 30 times in a calendar year. Online web ads and electronic Parker are just a click away, and will link CPA contacts and visitors directly to your site.

Advertising opportunities are available for local and national events such as the Annual Conference and Trade Show. Put your marketing message into the hands of more than 500 conference attendees. Details will be released prior to the events, or contact brenda@canadianparking.ca for information.

Parker Magazine

Issued quarterly, Parker magazine reaches key personnel and decision makers in the industry's various sectors including hospitals, airports, post-secondary institutions, municipalities, government agencies, private operators, equipment developers/suppliers and consultants. In addition to the parking sector, the industry intersects mobility, transportation, construction, financial and technology industries in the delivery of its services to the public.

Parker is a reliable source for members to increase their expertise in the fields of parking and mobility, and it examines issues including advancement in technology, insurance regulations, revenue control, facility maintenance, transportation demand management (TDM), urban planning, taxes, parking rates, and more. Being an excellent means of communication to the industry, Parker details trends on technical, political, and economic concerns for parking and mobility professionals, provides a forum for members to share information, and serves to educate the public on parking and mobility issues.
